VODKA

CHENIN BLANC | VODKA

Chenin Blanc (known also as Pineau de la Loire among other names), is a white wine grape variety from the Loire valley of France. Its high acidity means it can be used to make everything from sparkling wines to well-balanced dessert wines. Chenin Blanc grapes tend to provide a fairly neutral palate for the expression of terroir, vintage and the winemaker's treatment. In cool areas the juice is sweet but high in acid with a full-bodied fruity palate, musky melon aroma, and the potential to age quite well.

TASTING NOTES

Nose: Clear with an elegant character of ginger candy

Palate: Initially hot up front that gradually fades into a smooth character of pepper and other subtle fruit flavors.

Finish: Fresh and bright throughout with a long and satisfying finish.

VITIS VODKA | OUR PROCESS

Vitis is an ultra-premium vodka made entirely from the "Vitis Vinifera" grapes grown on the Roza Hills Vineyards in Washington State. Unlike other grape vodkas, our vodkas are made to showcase the diversity of the Vitis vinifera grape by producing singular varietal spirits using the same care and techniques used to make fine wines. This particular vodka was made using Chenin Blanc grapes harvested in the fall of 2013 from our vineyard in Zillah, Washington, and processed into wine at our sister facility, Silver Lake Winery. After the wine was fermented cool to preserve its fresh fruit flavors it was brought to our Woodinville facility and distilled in our Kothe Vodka Still, then aged for three to four weeks in tank before being bottled.
